Watch Building A Brand

It's website month here at The Futur!

2023 is going to be here in the blink of an eye. You have some exciting goals for next year, right? Well, let's set you up for success starting with giving **your** brand & website a polish.

Stay with us, don't click that close email button yet.

Listen, we know that working on your stuff is hard and frustrating. Client work easy peasy. You're a brilliant creative. But, **we all** go through those times when the creative we do for ourselves falls flat. Yes, all of us.

You don't have to sit spinning. Let's design a website that **eliminates bargain-basement clients and attracts people with money**. One that you're **proud of and feel represents how talented you are**.

We have a video series we think will help, **"Building a Brand"**. This series takes you behind the scenes of a complete business rebrand. We pull back the curtains to share the **process from start to finish**.

You'll see how ideas are shaped and take the form of a new identity system, packaging, messaging, website, and see the brand launch.

Take plenty of notes and apply what you learn to your brand and website. We know it's going to be great!
